Public Service Commission**

Memorandum

To: File

From: John Hamre

Date: October 15, 2015

Subject: Case No PU-15-174 and Case No. PU-15-690

The Commission granted a certificate under N.D.C.C. Chapter 49-22 to Courtenay Wind Farm, LLC to construction and operate a wind generation facility in Courtenay Wind Farm, LLC, 200.5 MW Wind Energy Conversion Facility, Stutsman County, Siting Application, Case No. PU-13-64. Prior to construction of the facility, the Commission authorized transfer of the certificate to Northern States Power Company in Northern States Power Company / Courtenay Wind Farm, Transfer of Certificate, Siting Application, Case No. PU-15-174. Rather than docketing records for construction and completion of the facility in the transfer case, the Commission created Case No. PU-15-690 instead. All records received from and after September 18, 2015, regarding construction and completion of the facility will now be docketed in Case No. PU-15-690, and case No. PU-15-174 will be closed.
